21ST Century Drug Design & Precision Medicine

October 31, 2012
American Hospital Conference Hall A

This conference is jointly organized by Koç University, University of Pittsburgh and American Hospital.

Symposium Registration
08:00-08:30
Welcome and Introduction
Şevket Ruacan, MD, PhD - Arthur S. Levine, MD

Computer-Aided Drug Discovery
Ivet Bahar, PhD

The Relationship Between Protein Structure and Function
Burak Erman, PhD

Prediction of Protein-Protein Interactions
Özlem Keskin, PhD

Designing Drugs for Prostate Cancer
Nathan Lack, PhD

The Role of Endocrine Hormones in Breast Cancer
Adrian Lee, PhD

Somatic Cell Reprogramming
Tamer Önder, PhD

Susceptibility to HIV Infection and AIDS
Jeremy Martinson, DPhil

Emerging Viral Vector Borne Zoonotic Diseases
Önder Ergündüz, MD, MPH

Surviving Sepsis
Derek Angus, MD, MPH

Emerging Therapeutics for Traumatic Brain Injury
Hülya Bayer, MD
