

# *Workshop*

## ***Molecular-to-Cellular Modeling of Complex Biological Processes***

***February 3, 2004  
Mellon Institute Auditorium  
9:00 am - 4:30 pm***

The goal of this local workshop is to jump-start the pre-Center's goals by bringing together the experimental and computational communities, presenting the types of existing problems that could benefit from collaboration between the two groups, and discussing data, methods, and tools that different groups can provide.

- I. Nitric Oxide and Apoptosis – Chairs: Y. Vodovotz & B. Ermentrout
- II. DNA Damage Recognition & Signaling – Chairs: R. Wood & I. Bahar
- III. Signaling Ligands and Cascades – Chairs: J. Lazo & D. Zuckerman
- IV. Other projects session – Chairs M. Cascio & R. Coalson
- V. Integration session – Chairs: J. Stiles & J. Madura:

*Light lunch will be provided.*
